NEW Ultra Care+ Platinum Multi-Active Cleanser & Masque

Hydration is the key to younger-looking skin that lasts, while ensuring you remove all dirt and product build-up on a regular basis to allow for your most effective cellular regeneration.

This is where the genius of this dual-action, youth-enhancing formula comes into play, as it delivers a thorough cleanse while intensely hydrating your complexion for healthy, revived skin that is firm, plump and refreshed.

Two uses in one

Cleanser: morning and night, massage onto moist face. Rinse or wipe off with a cotton pad. Avoid eye area.

Masque: twice per week, at night, apply to the face and leave on for two to three minutes. Rinse or wipe off with cotton pads. Avoid eye area.

Hydration hottie

Boost the effects of your treatment products from the inside out with skin-loving hydration, by drinking two to three litres of filtered water, and eating high-water foods like raw fruits and vegetables. Try to keep black tea and coffee to one per day, and cut back (or better yet cut out) alcohol. In a few weeks, you will notice a significant difference to the appearance of your skin.

FIRM – HYDRATE – PURIFY

91% of women saw an improvement in skin hydration**

How it works

Repair Complex =
skin regeneration and protection.

Lactobacillus Probiotic Extract =
reduced fine lines and wrinkles.

Sodium Hyaluronate =

smoother-looking skin.

Hexapeptide-10 =

Caffeine =
energised, fresh appearance.

**Based on consumer self-evaluation of Cleanser & Masque and Toning Essence Duo over four weeks.

“What a brilliant innovation! I have no hesitation recommending the **NEW** Platinum products to friends, as my skin is refreshed and in better condition.”

NEW Ultra Care+ Platinum Skin Regeneration Toning Essence

This unique formula contains pearl particles for ultimate radiance, and a healthier, brighter glow while protecting your complexion and stimulating skin regeneration.

Smooth and hydrate the skin while reducing the appearance of fine lines and wrinkles, as you firm and improve skin density for a smoother, fresher, younger-looking complexion.

Use morning and night

After cleansing, apply to the face using fingertips. Avoid the eye area.

Lactobacillus Probiotic Extract

- ✓ Just like we take probiotics to create a happy, healthy environment in our gut, applying them topically to our complexion creates an optimal environment for healthy skin.
- ✓ This healthy, happy environment promotes skin barrier function, which is our skin's defense against UV damage and external causes of ageing.
- ✓ This barrier protection restores hydration, reducing the signs of premature ageing.

FIRM – HYDRATE – PURIFY

Platinum beauty tips

Block it for beauty

Wearing sunscreen 365 days a year is one of the most proactive anti-ageing steps any woman can take – at every age. It may be cloudy outside, or you may leave early in the morning and return once the sun has set, but don't be fooled! UVA rays travel through windows in the office, home, and car. Studies have shown that UVA induces discolouration. If your make-up does not contain SPF, we recommend using **Ultra Care+ SPF 50+ Day Lotion** before application.

Glass VS bottle

Years of constantly pursing your lips around a water bottle or straw, can significantly increase the formation of lines around the mouth. Try sipping filtered water from a glass, or get into herbal teas to keep your hydration levels optimum.

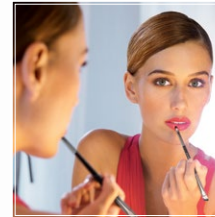

Sleep savvy

We all know that beauty sleep is imperative for great skin; however, the quality of sleep is just as important. Years of repetitively pressing your face against wrinkles in your pillowcase fabric can leave its mark on your skin. Avoid sleep lines by sleeping on your back when possible, and investing in a satin or silk pillowcase to protect your precious complexion.

For the make-up PROFESSIONAL in you

These specially designed brush heads cater for every application technique with superior nylon fibres, complete with a portable pouch for professional touch-ups on the go.
