## Application Tips:

1. Sweep Candy Almond or Sandstone through the socket line, or slightly above the crease for hooded eyes, to create a soft floating wash of colour that enhances the eye shape.
2. Blend the deeper shade into the outer corner of the eye to add definition and create a softly smoked finish.
3. Optional: Press a light shimmer such as Astral Gold or Copper Blaze onto the inner eyelid to brighten the eyes and draw light toward the centre of the face.
4. Apply blush to the high points of the cheeks, blending upward toward the temples for a lifted, refined look.

# Life with Nutrimetics

"I initially joined Nutrimetics as a single mum hoping to earn a couple of hundred dollars a month to cover the little extras. I never thought for a minute it would change my life. I went on a trip to Canada and have been to so many other destinations including Borneo with my gorgeous daughter last year. I got my first car in 7 months, and I have had a Nutrimetics car for the last 25 years (rego and insurance paid!). I love the freedom it offers me to work where and when I choose. I have the most amazing VIPs & customers & I cherish the friendships I've made with other Nutrimetics Managers; my life is so much richer for it. In closing I would suggest our products are high results & if you have never tried our Platinum transformational skincare program run, don't walk because it's beauty that works."
