

Clear your land of debris with the Frontier Root Grapple

Frontier proudly presents the new Root Grapple loader attachment. This sturdy and powerful grapple will make heavy debris removal simple. Built tough to move logs, brush, rocks, or debris easily and quickly.

Looking for the Frontier Root Grapple that fits your requirements? Frontier offers four durable models to assist you – the AV20H, AV20E, AV20D, and AV20G – with up to 50-inch grapple opening and 77-inch grapple width for efficient removal of unwanted clutter and remains. All models feature replaceable weld-on wear tips for easy maintenance and optional parking stands for convenient storage.

For tougher to handle debris, the dual cylinder models provide a tighter grasp helping to secure the load (*not available on AV20H*). The Frontier Root Grapple is compatible with a wide range of John Deere loaders. And as an added advantage, the AV20G operates with global carriers for easy attaching and detaching.

This tool is for you. Whether you're a contractor removing leftover building supplies or a landowner clearing stumps, root balls, and large tree branches, the Frontier Root Grapple can handle the task.

Visit with your local John Deere dealer today and ask about the new Frontier Root Grapple. You'll find the right model for your needs. The Frontier Root Grapple is backed by John Deere, your exclusive supplier of Frontier Equipment.
